Scan-Pac News:

Scan-Pac Mfg. is pleased to introduce Bob Gartrell with the Rowland Company as its new Representative for the Southeast Territory of the United States, effective November 1, 2008.

Bob has gained years of experience in the friction material industry while working for The Rowland Company. Before Rowland, Bob spent several years with the Dana Corporation selling Wichita, Formsprag, and Spicer. Having received an engineering degree from the General Motors Institute, Bob is technically focused with the ability to review applications.

We are proud to have Bob representing Scan Pac in the Southeast area. He will be the representative for customers in the following states – AL, GA, FL, NC, SC, and TN.

Scan-Pac Mfg., Inc., is a manufacturer of non-asbestos friction materials and phenolic bearings for use in a wide range of industrial and oil field applications. The company employs approximately 120 individuals at their two manufacturing locations in Menomonee Falls, Wisconsin and Magnolia, Texas. Scan-Pac has been in business for nearly 35 years.
