

Product Spotlight: Gemini-GX Extruded

May 31, 2016

Dear Customer,

Scan-Pac's Gemini-GX extruded is solving problems for customers looking for a lower cost flexible material that is effective on a wide range of industrial applications. Our GX materials have been used on fork lifts, antique cars, golf carts, electric motor brakes, industrial machines, winches and disc brakes. The material is available in roll form or cut lengths and is extremely easy to use. Gemini-GX has a high level of flexibility that can be easily bonded to a backing plate, drum, or brake band.

Scan-Pac's Gemini-GX will perform at a high level on your applications. It boasts a low wear rate at .002 inch³ /hp-hr and stable mid coefficient of friction at .43. This material can ship within 24 hours of order placement.
