

*Friction Materials & Phenolic Bearings*

## Trade Show Representation

February 2011

Scan-Pac invites you to visit our booth at one of two upcoming trade shows. On display at these shows will be our new product offerings, samples, and our core line of friction and phenolic product offerings. In addition, our booth will be staffed with technical experts who will discuss applications and make material recommendations on the spot as well as sales representatives for pricing, lead times, and setting up new accounts.

### **Con-Expo**

Las Vegas, NV Convention Center  
March 22-26, 2011  
Booth #30908 – Hilton Indoor

Scan-Pac will be exhibiting new product offerings including Kobelt™ style disc pads, water cooled brake friction pads, new material developments for high static and dynamic coefficients of frictions, as well as our exciting new Gemini line of friction products.

### **OTC – Offshore Technology Conference**

Houston, TX  
Reliant Park  
May 2-5, 2011  
Booth #5409 – Main Hall

Scan-Pac will be exhibiting our new Gemini Oilfield brake blocks for drawworks applications. The new addition of Gemini Oilfield blocks offers long-lasting and dependable performance while maintaining rigorous quality expectations. In addition, we will show you our new Kobelt™ style disc brake pads for Oilfield applications.

Both shows will display our core line of friction and Gatke phenolic bearing products. For questions about the upcoming shows or any of our products, please contact us at 262-255-2525 or visit us online at [www.scanpac.com](http://www.scanpac.com)

We hope to see you soon!
