Product Data Sheet: Green Gripper Woven (GGW)

PRODUCT DESCRIPTION
GGW is a Non-Asbestos woven product for heavy-duty industrial applications. Notable on the test curve are the consistent friction levels and the excellent fade resistance. Recovery is immediate and complete. GGW exhibits high friction under a wide range of temperatures. GGW can be used on wet dry band brakes for industrial use where medium to high friction is required. The product is available in roll form, flat sheet, and custom shapes.

CHARACTERISTICS
- High Static friction
- Uniform friction
- Non-ferrous metallic
- Immediate and complete recovery
- Good wear rate

MECHANICAL PROPERTIES
Specific Gravity (SAE J380) : 1.15
Tensile Strength, PSI (ASTM D638) : 1500 min

FRICTIONAL PROPERTIES
Coefficient of Friction (SAE J661):
- Normal* : 0.50
- Hot*   : 0.46
Wear Rate (SAE J661) (inch^3/hp-hr) : 0.005
Friction Code : GG
Maximum Operating Limits:
- Rubbing Speed** : 5000 fpm
- Pressure** : 200 psi
- Drum Temperature for Constant Operation** : 550°F

SAE J661A TEST CURVES

*Note 1. – Friction values shown are for guide purposes only since values deviate with changes in temperature, pressure and speed. Practical design should include a 25 to 50 percent safety factor.
**Note 2. – Rubbing speed, drum temperature, and pressure are directly related. Changing any one value will change the others. The values shown represent typical conditions, but are not the ultimate limits of the material.
