## SCAN-PAC MANUFACTURING ANNOUNCES NEW TRUCK BRAKE FRICTION MATERIAL

---

November 30, 2016

Dear Customer,

Scan-Pac Manufacturing is pleased to announce the addition of Gemini truck block sets to their product offerings. Our high quality truck blocks are designed to perform on over-the-road semi-trucks and buses. We are releasing two truck block materials, GEM200 and GEM301. GEM200 has been independently tested to FMVSS 121 and approved for semi-trucks up to 20,000 lb. axle weight. GEM301 has been independently tested to 23,000 lb. axle weight. Both materials offer excellent fade and recovery in addition to low wear rates on the friction and mating surfaces.

The addition of truck block sets enhances Scan-Pac's capability to satisfy the needs of the market. These blocks perform at a high level on truck braking systems, while maintaining the competitive prices offered by the Gemini family of products.

Scan-Pac is pleased to offer several of the most popular truck block sets on the market. All sets are available in both 20,000 and 23,000 lb. axle weight ratings. In addition, all truck blocks come carefully packed in individual boxes. Truck blocks usually ship within 1-2 days of the order date.

*Friction Materials & Phenolic Bearings*

**Truck Block Sets Available**

Part Number	Axle Rating	Gemini Material	Pieces Per Set
4515CD	20,000	GEM200	8
4515CD	23,000	GEM301	8
4707D	20,000	GEM200	8
4707D	20,000	GEM200	8
4709D	23,000	GEM301	8
4711D	20,000	GEM200	8
4711D	23,000	GEM301	8
1308D	23,000	GEM301	4

We are taking truck brake block orders now for delivery in early December. Request a quote or place your order today. Our friendly and helpful customer service staff is available Monday through Friday from 8 AM to 5 PM central time. Contact Information: Phone 262-255-2525 or e-mail sales@scanpac.com.

Scan-Pac Manufacturing continues to be the industry leader in development of new friction materials for difficult applications. The company employs two PhD chemists who are dedicated to formulating the highest performing friction materials in the market. Next time you need a friction material or when an off-the-shelf formulation does not meet your requirements, please give our R&D experts the opportunity to work with you.

Scan-Pac Mfg. is a manufacturer of non-asbestos friction materials and phenolic laminates for use in a wide range of industrial and oilfield applications. The company has three manufacturing locations that include two facilities in Menomonee Falls, Wisconsin and one in Magnolia, Texas. Scan-Pac has proudly been in business for more than 40 years.
