## PRODUCT SPOTLIGHT – A-BLOCK & GEMINI OILFIELD BRAKE BLOCKS

November 4, 2019

Dear Scan-Pac Customer,

Scan-Pac Manufacturing would like to highlight the effectiveness of our A-Block and Gemini Oilfield friction materials because of their high coefficients of friction and low wear rates. These materials provide a constant friction level with excellent fade resistance. Our Oilfield woven materials are manufactured on industrial weaving looms, along with precision-controlled friction saturants, at our manufacturing facility in Magnolia, Texas.

The tightly woven dense construction of our Oilfield Brake Blocks provides premium life characteristics. These materials are specifically designed for holding and stopping with the least amount of abrasion. In addition to woven brake blocks, Scan-Pac also offers molded blocks for additional cleaning of the bands when applied on the dead-end of Oilfield Brake Bands.

These industry leading materials are specifically designed for holding and stopping with the least amount of band wear. Typical applications include drilling, workover rigs, and pump jacks. Scan-Pac's woven brake blocks are asbestos-free, which eliminates the liability associated with materials that contains asbestos.

**Oilfield Friction Product Offerings:**

- Drawworks Brake Blocks for Drilling & Workover Rigs
- Clutch Facings/Gear Tooth Facings
- Clutch Blocks
- Insulator Plates
- Plain Rings/Cathead Facings
- Disc Pads

Scan-Pac Manufacturing continues to be the industry leader in development of new friction materials for challenging applications. The company employs two PhD chemists who are devoted to designing the highest performing friction materials on the market. Next time you need a friction material, or when an off-the-shelf formulation does not meet your requirements, please give our R&D experts the opportunity to work with you.

Scan-Pac Mfg. is a manufacturer of non-asbestos friction materials and phenolic laminates for use in a wide range of industrial and oilfield applications. The company has three manufacturing locations that include two facilities in Menomonee Falls, Wisconsin and one in Magnolia, Texas. Scan-Pac has proudly and successfully been in business for more than 45 years.

Check out our website [www.scanpac.com](http://www.scanpac.com) where you can find more details on the applications and industries we serve. There you will also find data sheets for all of our materials as well as SDS sheets in PDF format for easy viewing and printing.

Thanks and best regards,

Jeff Lichey  
VP, Sales & Marketing
